2020 SAUVIGNON BLANC  
Napa Valley

One of the fresher Sauvignon Blancs produced since we began in 2016. We picked early in the morning on August 14th. The fruit was pressed whole cluster to a settling tank and from there to barrels. 25% of the grapes were placed into new French oak and the balance into standard and cigar shaped barrels.

It remains our classic Sauvignon Blanc of mineral aromas, crushed rock, with lemon notes on the nose. Acid on the palate carries the wine through mid-range with citrus zest, lime, and tropical notes. Oak barrels add dynamic tension, structure, and texture. The finish is vibrant and bright with distinctive herbal flavors. The acidity is intense yet pleasant and enjoyable now. This Sauvignon Blanc style will age nicely and we recommend serving at cellar temperature.
